whole lot of water."

According to Turner, 345,000 structures in 135,000 were single-family dwellings. In the southern portion of District E alone, there were approximately 4,080 damaged structures, Turner To combat this, Turner has proposed multi-

ple options, such as expanding channels, adding detention basins and elevating homes and structures. The mayor is also a staunch supporter of the proposed coastal spine. 'We've had a lot of talks about the coastal

spine, and we need to realize that that's something that needs to be included in the equation,' Turner said. "It costs about \$12 billion for the coastal spine, but it's better to do something on the front end than wait for disaster to hit and then

Turner referenced three "fronts" for funding

The first front of funding is already available through the state's General Land Office. According to Turner, residents are eligible for \$17,000 to make their homes livable or \$60,000 to make

ly \$5 billion that was approved by Congress this past December. While those funds have been specifically earmarked for the region, they must still go through the feds, then to the state, before reaching the city. Turner said it would likely take until August to receive this funding.

The third front of funding is an additional \$89 billion approved by Congress. These funds, however, are to be divided among Texas, California, Florida, Puerto Rico and the Virgin Islands. Again, the money must first go through the feds and then the state, before reaching the city. These funds won't likely be available until December,

The mayor is taking steps to help speed up this process.

"We're working with all of our stakeholders and partners to see if we can expedite that time line because, quite frankly, people need that money right now," Turner said.

Threat places Frazier on lockdown

An unspecified external threat caused Frazier Elementary to be temporarily placed on lockdown Friday, March 23.

According to school officials, a "possible threat" was detected at approximately 10:45 a.m., prompting the campus to go into "secured perimeter" lockdown. This entails bringing in all students from outside and locking all exterior

Administrators deemed the campus safe around 11 a.m., and the school schedule continued as normal.

A message was sent to parents notifying them of the event. This marked the second time this month the

campus experienced a scare. On Monday, March 5, the school dismissed late after a possible shooting was reported nearby.

Traffic stop leads to felony arrests

A traffic stop led to multiple felony arrests on Thursday, March 22.

According to Lt. Mike Kritzler from the Harris County Precinct 2 Constable's office, the incident began around 1 p.m. when local contract deputies pulled over a vehicle in the 13000 block of Scarsdale for having illegal window tint.

Upon making contact with the driver and oc-

cupants, deputies detected the smell of burnt marijuana coming from the inside of the vehicle. All occupants were detained as deputies conducted a search of the vehicle.

The search yielded 2.5 ounces of marijuana and multiple other items believed to be stolen in burglaries. Two stolen firearms were recovered.

Morman addresses state of Precinct 2

By James Bolen

Dozens of community leaders and elected representatives were in attendance Thursday, March 22, as Harris County Commissioner Jack Morman delivered an address on the current state of Precinct 2.

Represented by Morman since 2011, Precinct 2 includes more then 380 employees operating 50 parks, 17 community centers, more than 1,300 miles of county roads, the Lynchburg Ferry and the Washburn Tunnel. The precinct also includes 99 percent of the Houston Ship Channel and the Port of Houston. Composed of 15 separate cities, Precinct 2 has twice the number of cities as any other precinct in the county.

Morman spoke at length about Hurricane Harvey and its subsequent recovery, as well as future flood mitigation efforts.

"This past year Harris County was on the re-

ceiving end of one of the worst flooding events in our nation's history," Morman said. "Seven months ago Harris County and our region received over 50 inches of rain in just 4 days. I lost count of how many Astrodomes that amount of rain would fill. In unincorporated Harris County, over 30,000 residential structures flooded during Harvey, with approximately 5,700 homes flooded in Precinct 2. Our cities from top to bottom also were hit hard. Everyone was affected one way or the other, but the resolve of the people of Harris County, both during the storm, and throughout the recovery process, has been inspiring to witness."

In just the unincorporated parts of Precinct 2, crews and contractors picked up more than 260,000 cubic vards of debris. That's enough to fill more than 16,000 dump trucks.

2 arrested in attempted ATM theft

Houston police arrested two men early Thursday, March 22, for attempting to steal an ATM from Texan Bank in the 12900 block of the Gulf

Police were notified of the incident around 2 a.m. when they received two separate alerts – one involving a stolen pickup truck that was used in the attempted heist and one from an alarm company stating the ATM had been disturbed.

Using a GPS tracker, the owner of the stolen truck was able to locate his truck at the Texan Bank. Upon his arrival at the bank, the truck owner witnessed two men attempting to load the ATM into the truck using a front-end loader, also later determined to be stolen.

Police arrived at the scene before the men were able to successfully load the ATM into the

Muecke comments on Martin's meeting

Thanks again for your support.

Publisher's note: The following is a letter from Muecke addressed to Council Member Dave Martin.

Good morning Councilman Martin,

Yes, it was a very good meeting and well attended. I liked NASA but this location was much nicer and convenient for a number of people. Also, gave me a free look around of just what really won WW II. Use this location again.

All presenters did a good job, I just wish more people would stand up, ask questions and get involved.

The mayor did a good job on hitting a number of important topics. He mentioned what foreigners look at Houston for, NASA and the Rodeo, Need to run this by you. Ever since I became active in this community I looked at ways to rebuild Freeway Manor. Location, Location. location. This community is now 60 years old, some nice but old houses on nice big lots. We are 10 miles from down town, 3 miles from Hobby, 2 miles from the beltway, 6 miles from Ellington, 15 from NASA, Baybrook shopping center that is growing leaps and bounds and 40 miles from Galveston. Easy commute in all directions and being next to Pasadena. My dream was to have some one come in and re develop this area of Freeway Manor. Sun Valley and Gulfway Terrace. Lets go back to Bellaire, it had a bad reputation, do not move there. Look at what redevel-opment has done for that area.

Once you get this flooding issue up and running lets explore how this area can be re-developed into a first class location. It will be the center point for southeast Houston. Keep up the good work for this community.

Ducks apparently not starving

There have been multiple comment threads on social media about the ducks at the former Joe's Crab Shack located near Fuqua and the Gulf Freeway. The restaurant has been closed for more than a year, and some residents are concerned about the welfare of the ducks. The holding pond where the ducks reside predates the opening of Joe's, as it was part of the Park at Fuqua development that previously occupied the space. A visit to the pond indicated the ducks appear to be healthy and well fed. One Facebook commenter said it would be illegal to relocate the birds, as they are state and federally protected animals. On certainly not the prettiest of days, Dobie and Memorial combined to play not so pretty a softball game.

Yet in this heated rivalry, Dobie's 4-1 victory over the Lady Mavericks March 27, at Dobie, was as beautiful as they come for the locals.

With the win, Dobie ended the first half of District 22-6A play at 5-2, a game ahead of Memorial, which is now 4-3. Deer Park is a perfect 7-0, with La Porte at 6-1.

It's again a playoff chase that is destined to go down to the wire in terms of playoff seeding.

Thanks to pitchers Alana Ortega and Miquela Guajardo, star center fielder Yvonne Whaley and others on Dobie's side, the Lady Longhorns currently hold an edge over their rivals. The first round is now complete.

Ortega pitched around bases-loaded trouble both in the first and third innings, but would not surrender the big blow.

Memorial touched Ortega for a pair of hits in the first inning, yet had to settle for just one run after From there, though,

Ortega stranded the bases loaded, trailing just 1-0. The Lady Longhorns

Now the journey begins anew as Cahue and his teammates, including Alberto Chavez (2) take on Goose Creek Memorial in the bidistrict round. Meanwhile, the Dobie girls will face Atascocita. The Dobie boys defeated GCM 4-0 during the Pasadena ISD Cup, the first day of the regular season back on Jan. 4. But Dobie head coach Justo Manrique is discounting any results that may have occurred back then. In boys' play, the Dobie/Goose Creek Memorial winner will advance to face either Brazoswood or Friendswood in the area playoffs. The Atascocita/Dobie girls' winner will take on either District 24-6A champion Clear Springs or Dawson in the area round. The boys' and girls' area playoffs will be contested April 2-3.
